

**IN THE SPECIFICATION:**

Page 30, lines 2-6, please amend the Abstract of the Disclosure as follows:

~~The present invention is directed to a~~ A system for generating an electrical power output from a subsea installation, ~~the subsea installation comprising~~ that includes at least one flowline, wherein the system ~~comprising~~ includes a turbine that is operatively connected to the flowline, the turbine being rotatable by fluid flowing through the flowline, and the turbine generating the electrical power output when the turbine is rotated.
